

FIM EVO

The production line integrator tool

Benefits

- Extremely flexible platform
- Management of multiple devices and tools on the plant floor
- Manage all your station assembly needs
- Reduce installation and maintenance costs
- Reduce IT costs (only one IP address needed)
- Reduce operator training
- Reduce time for parametrization because all parameters into one device

Features

- 7" touch screen
- VGA Port for External Monitor Mirroring
- Double Ethernet connection
- Up to 16 input and 16 output (24 V)
- 2 RS232 ports and one RS 485/422
- CAN-Bus Interface
- 4 USB Ports
- SD Slot for fast configuration backup and loading
- FieldBus support
- Sequence/Job/program management for production
- SCS wrenches supported:
 - Freedom¹
 - Freedom³
 - Freedom⁴
 - Freedom CCS
 - Freedom EWW³
- Management of SCS Freedom Socket Tray (cabled and WIFI)
- Power Tool supported:
 - Open Protocol tools
 - Bosch Rexroth Nexo
 - AMT
 - Cleco Livewire
 - XML
- Open Architecture for implementation of data exchange software/applications
- Result and trace buffer for offline work mode (100.000 results)
- Interface with VPG+
- Other functions:
 - Interface with IPM
 - Interface with PFCS
 - Interface with ToolsNet
 - Interface with VW XML
